

UI/UX DESIGNER

360 Dotnet is looking for a UI/UX Designer to take our client relationship management system, 360 Lifecycle, even further ahead of its competitors. As a UI/UX Designer you will bring creative ideas, a sensitivity for how people use digital products and excellent design execution skills, enabling our customers to create great published experiences! You will apply user-experience research and design methodologies to catalyse scientific software products. Working in collaboration with cross-functional teams, you will partner with product managers, business analysts, developers and QA to oversee the user experience of software solutions through discovery, design, development, and delivery.

ABOUT US

360 Dotnet created the software, 360 Lifecycle, for mortgage and insurance advisers. Whether it is arranging a mortgage or protecting clients against the unknown; we help businesses and clients succeed. We enable businesses to make a positive social impact, helping families to buy their homes and plan their financial future. Our customers choose us for our proven technology solutions, our expertise and our exceptional service.

Our software is trusted by some of the UK's best regarded financial advice brands. We have grown to become a major player in the mortgage intermediary software market; 20% of mortgage brokers rely on our software, our clients include leading names in UK financial advice, such as Knight Frank Finance, Alexander Hall and Quilter.

RESPONSIBILITIES & DUTIES

- Create lo-fi wireframes, hi-fi mock-ups, and interactive prototypes to support and illustrate functional user stories.
- Creating Design Systems for different products.
- Synthesize information from product requirements, stakeholder needs, and user feedback to produce informed designs.
- Optimising existing experiences to improve user engagement.
- Critically think about and solve complex UX problems, reducing complexity to create simple, delightful experiences for users.
- Lead visual and interaction design efforts through regular collaboration with business, development, and product departments.
- Create videos that show UI/UX motion and product in action for stakeholder feedback, client support and marketing purposes.
- Work with marketing to help create and maintain brand identity.
- Solve independently to find creative solutions.
- Implement and evolve our design system to address user and product needs.
- Conduct regular visual quality assurance to ensure parity with QA/UAT environments and wireframes.

SKILLS & EXPERIENCE

- At least 3 years' experience in UI and UX design on cross-platform applications for desktop, mobile, and tablet
- Passion for all things digital, software and web applications
- Excellent creative thinking skills
- Excellent skills in Adobe XD, Illustrator/Figma/Sketch
- Experience of working in an agile team
- An inclusive approach to design, ensuring usability and accessibility for all
- The ability to flex between UX and visual or creative design
- Great verbal and written communication skills

BENEFITS & OTHER INFORMATION

- Competitive salary and bonuses
- 25 days holiday plus bank holidays
- Hybrid working between home and our Leicester office
- Hours of work 9-5.30, Monday to Friday
- You will be reporting to the Product Development Director
- Healthcare
- Pension scheme
- Access to Perkbox discounts to help employees live and work better
